Re: Peninsula Waste Water Services

Hazco Environmental Services is pleased to announce that HAZCO has purchased Peninsula Waste Water Services (PWWS) located in Victoria and Prince Rupert, BC.

PWWS services the marine and environmental industry providing waste management services to cruise lines, ship yards and the Department of National Defense. PWWS has a waste water treatment facility located in Victoria, BC and has 11 employees. The Company was previously owned by 2 individuals and one of the owners, Peter Lehmann has agreed to stay on as Senior Marine Project Manager. Michele Strong will remain as Operations Manager and Tom Bean as Process Supervisor. HAZCO's Vancouver Island Manager, Cameron McLean, will manage the new business group.

PWWS has built a tremendous reputation for customer service and is recognized as a premium service provider in the marine industry. It is felt the synergies between the businesses will provide tremendous growth opportunities for PWWS, HAZCO and CCS.

On behalf of the CCS and HAZCO divisions, we welcome the new Peninsula Waste Water Services employees. We value your knowledge, experience and individual expertise and look forward to working with you.

Best Regards,

HAZCO Environmental Services,
A division of CCS Corporation
